## Perti-Beetle

Proven efficacy  
Does not contain  
pesticides\*

Liquid product for livestock buildings

### DIRECTIONS FOR USE - PROFESSIONAL USE ONLY

For control of litter beetles (*Alphitobius diaperinus*, also known as darkling beetles) in their adult and immature forms (larvae and eggs) by treating livestock buildings in broiler chicken or swine production. The product is a ready-to-use liquid, intended to be sprayed in livestock buildings using a backpack sprayer. Starts to work within the first 12 hours of application. Direction for use: For best results, apply in two applications when the beetles are migrating between the floor and the walls of the facility. For the first application, apply immediately after the animals have been moved out of the building at the end of the flock. For the second application, apply after reheating of the building has begun but before introducing the new flock. To apply, spray a strip at the junction of the floor and wall, extending 1 m high on the wall and 50 cm onto the floor at a rate of 20L per 1000 m<sup>2</sup>, which corresponds to 20L for 500 m<sup>2</sup> of effectively treated area. Also consider spraying a 50cm strip under the feeders. Repeat application after each flock. Make sure that the treated buildings are well ventilated and that the treated surfaces are completely dry before allowing people or animals back into the buildings. Suitable for organic farming.\*\*

### PRECAUTIONS

**Danger-May be fatal if swallowed and if enters airways. Wear protective gloves, protective clothing and eye/face protection. FSWALLOWED: Immediately call a POISON CONTROL CENTER or doctor. DONOT induce vomiting.**

### CLEANING-STORAGE

Clean the application equipment with water. Dispose of contents and container at an approved hazardous waste collection center, in accordance with local, regional, national, and/or international regulations. Do not dispose of remains in sewers or watercourses. Storage: Keep in a dry place, protected from light, at room temperature between 5 and 35°C in the original, tightly sealed container - Shelf life: 2 years from the date marked on the packaging.

### Net Contents : 20 L e

UFI: RQ40-50NA-Q006-FK6V

Active biocidal substance (TP18): Geraniol  
(CAS No. 106-24-1) ... 0.5% w/w

#### Contains :

White mineral oil (petroleum)

(CAS n° 8042-47-5)

Contains geraniol. May cause an allergic reaction.

#### Danger

Preparation type:

AL (other ready-to-use liquid)

Batch number: see on the packaging
