

Perti-Mite

- Concentrated liquid formulation
- Kills all stages of development
- Effective minutes after application.
- Can be used in the presence of animals and eggs

A SOLUTION FOR

Harmfulness

The red mites affect 70% of layers, breeders and broilers. They have a considerable impact on production, and can cause anemia and stain eggs.

How does it work ?

Unique process that enhances properties of plant essential oils with a dual mode of action :

Physical :
Dissolves the insect cuticle (armor)

Biological :
Selectively blocks insect neuroreceptors

Key strengths

New mode of action without pesticides*

Effective against all development stages (from egg to adult)

Concentrated and easy-to-use formulation

Can be used in the presence of animals and eggs

Approved for organic agriculture**

*Does not contain pesticides derived from synthetic chemistry according to European Regulation EC 1107/2009

**Compliant with current European Regulation

Direction for use

Dilution (per liter of solution to be applied)	250ml/L 250ml of Perti-Mite + 750ml water
Application	Application of the diluted eco-solution (for 1000 layers)
Low infestation 1,2L	High infestation 2,5L

- Perti-Mite is a concentrated liquid to be diluted and spread using a backpack sprayer
- Can be applied in the presence of animals and eggs
- Dilute with water at a rate of 250 ml/L, just before application
- Depending on the degree of infestation, apply 1.2L to 2.5L of Perti-Mite solution fully diluted for 1 000 layers
- Focus on structures where the red mites congregate : metal framing, feeders, conveyors, nesting boxes nests, slats,...
- Repeat application after 7 days
- Wear gloves, protective clothing, and eye/face protection

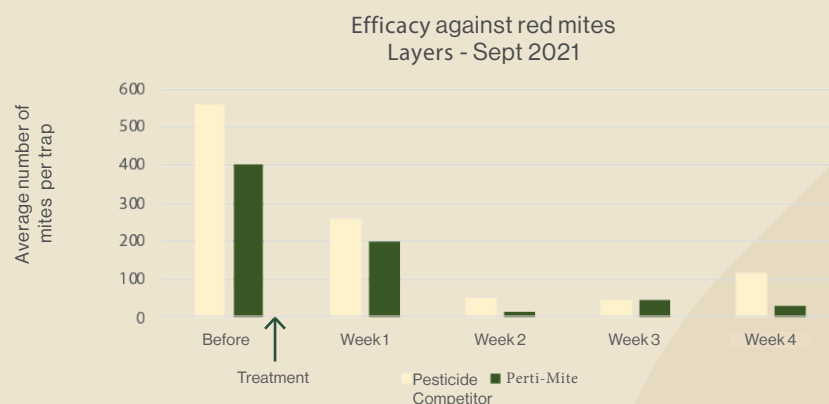

→ Where to apply the product?

Composition

- Biocide active substance (insecticide, TP18/SL)
Geraniol (CAS n° 106-24_1)... 10% m/m
- Net Contents : 5L (concentrate)

Proven performances

Perti-Mite is as effective as the chemical competitors on the market, while being safer for the applicator, animals and the environment

No need to choose between what works and what is good for the planet
